## Hal Turner – Hal Turner Radio Show Aug 21, 2023

The powers-that-be (TPTB) re-branded the Flu as “COVID-19” and suckered the entire world into taking a phony “vaccine” that doesn’t work, but kills most of the recipients. Want proof? Here: World Health Organization Annual FLU Chart. . .

Notice the Flu “Disappeared?” Look:

## MASK MANDATES COMING BACK ...

Remember how they told us during the whole COVID debacle to "trust the science?" Well, for about the past two years, the "science" told us that masks "don't work" to protect anyone from a virus. That's why actual scientists wear fully-encapsulating suits with external air hoses when they work with Level 3 or Level 4 pathogens.

The Wuhan Institute for Virology, where this so-called "COVID-19" came from, is a Level 3 BSL (Bio-Safety Laboratory). They worked with the COVID Bat Virus which they claim COVID-19 came from. What do THEY wear in THAT lab? This, as shown by NBC News (HERE):

So you go right ahead and keep thinking that your \$10 paper mask will protect you . . . or maybe that your Bandana on your face will protect you. They won't. They never have. They cannot.

The pores on those masks we all WORE DURING covid, are, at best, able to filter out particles that are 4 microns in size. Micron is a metric measurement converting to one-millionth of an inch. The masks you and I were told to wear, can only filter out particles large than 4 microns, or four millionths of an inch.

Do you know how big a COVID virus is? 0.04 Microns . . . 100 times SMALLER than the pores on the masks! Using a paper mask to try to protect yourself from "COVID" is like using a chain link fence to try to protect yourself from Mosquitoes; it doesn't work. It can't.

Yet here we are, in August 2023, now being told "Mask Mandates" are coming back.

COVID mask mandates are returning to Hollywood, with Lionsgate being the first major studio to reinstate masking and daily testing for its Los Angeles office workers.

Lionsgate is requiring employees who physically work at its headquarters in Santa Monica to wear masks at all times when in the building, effective immediately, except when alone in an enclosed office or large open workspace. In addition, employees are required to submit to daily COVID testing and to report the results to the company, according to an internal memo obtained by Deadline.

Employees must wear "a medical grade face covering (surgical mask, KN95 or N95) when indoors except when alone in an office with the door closed, actively eating, actively drinking at their desk or workstation, or if they are the only individual present in a large open workspace," the memo reportedly states.

The Los Angeles County Department of Public Health has reported a recent uptick in transmissions but "overall metrics remain at a low level of concern."

A growing number of colleges and medical institutions throughout the country are also reinstating mask mandates, with the mainstream news media running articles pushing for the return of face coverings.

In Syracuse, NY, Upstate Medical's two hospitals, University and Community General, reimposed mandatory face-masking after reporting an uptick in Covid-19 cases.

Covid testing is now also required for all patients being admitted to the hospitals, according to a memo sent to Upstate staff and provided to Syracuse.com.

In Atlanta, Morris Brown College has announced that the school is reinstating its Covid mask mandate for the next two weeks as a result of positive cases at the Atlanta University Center.

August 20, 2023

Greetings faculty, staff, and students,

Effective immediately, Morris Brown College has reinstated its COVID-19 mask mandate due to reports of positive cases among students in the Atlanta University Center. Over the next 14 days, the following protocols will be in place:

1. Mask Wearing: All students and employees are required to wear face masks (staff may remove in their offices while alone).
2. Physical Distancing: Students must maintain physical distancing.
3. Large Gatherings: Institutional guidelines for gathering sizes must be followed. There will be no parties or large student events on campus for the next two weeks.
4. Isolation and Quarantine: Students must adhere to institutional policies and CDC guidelines for isolation and quarantine.
5. Contact Tracing: Compliance with college-initiated contact tracing efforts is expected.
6. Symptom Monitoring: Students and employees are obligated to undergo temperature checks upon campus arrival.
7. Regular Hand Washing/Sanitization: Frequent hand washing is expected from all students and employees.

In New York, new COVID-19 admissions were up 3 percent for the week ending Aug. 5, with a total of 650 new admissions, according to CDC data. But wait, that does not jive with Johns-Hopkins World Meter which monitors national and international "COVID" cases.

According to the Johns Hopkins World Meter, there were only **five** new deaths in the entire United States yesterday from Covid. The Johns-Hopkins site also shows there were only **955 patients with Covid that were in serious or critical condition in the whole United States yesterday.**

Ready for the punch line? EVERY SINGLE ONE OF THOSE PATIENTS . . . . were Vaccinated!

ALL OF THEM.

Continues ...
